
IDB- School Wellness

Spartanburg County School District One is committed to providing a school environment that promotes and protects children's health, well-being, and the ability to learn by supporting healthy eating and physical activity.

Therefore, it is the policy of the board to ensure the following.

- Child nutrition programs (e.g., school lunch, school breakfast, after school snack and summer food service programs) will comply with federal, state, and local requirements and will be accessible to all children.
- Qualified child nutrition professionals will provide all students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students.
- All foods made available on campus will adhere to food safety and security guidelines.
- The school environment will be safe, comfortable, and pleasing and will allow ample time and space for eating meals.
- Nutrition education will be offered at each grade level as a part of a sequential, comprehensive standards-based health education program designed to provide students with the knowledge and skills necessary to promote and protect their health. Nutrition education may also be integrated into other areas of the curriculum.
- Students will be given opportunities for physical activity during the school day through physical education (PE) classes, daily recess periods for elementary school students, physical activity breaks and the integration of physical activity into the academic curriculum. Whenever possible, recess for elementary schools will be scheduled before lunch so that children will come to lunch less distracted and ready to eat.
- Schools will make a reasonable effort to discourage the denial of physical activity during recess as a form of punishment.
- Spartanburg County School District One will provide opportunities for ongoing professional training and development for food service staff, teachers and volunteers on the importance of physical activity for young children and the relationship of physical activity and good nutrition to academic performance and healthy lifestyles
- Local wellness policy goals will be considered in planning all school-based activities (such as school events, field trips, dances and assemblies).
- Spartanburg County School District One will maintain a Coordinated School Health Advisory Council (CSHAC) to assess, plan, implement and monitor district and school health policies and programs. The council will be comprised of members of the community, school representatives, students, parents, district food service

employees, district health education and physical education coordinators and district nursing coordinators.

- Schools should have a local coordinated school health committee comprised of physical education, health education and classroom teachers; school food services managers; health services personnel; guidance personnel; families; administrators and community members to plan, implement and improve nutrition and physical activity in the school environment in accordance with the district wellness policy.
