It is my hope that your child is making tremendous progress this school year. Our faculty is working diligently to meet the unique learning needs of all our students. All students will be taking the MAP test starting in late February. Every student has set goals for the Spring MAP test, and I know EVERYONE at IIS can reach their spring MAP goal! Please discuss these goals with your children and encourage them to try their very BEST.

IIS is proud to announce that we will present *The Wizard of Oz* on March 5th. Over forty of our students have been practicing weekly and we are excited about all the talent that will be showcased. Our evening performance will be held at Mabry Middle

School on March 5, 2012. We would love to have you join us!

Please help us by volunteering your time to help out in the classrooms and during school events. We will have many projects and activities throughout the school year where we invite your participation. It's important for your child to see you involved in his/her education both in the classroom and out. Also, as a reminder, **school starts promptly at 7:45AM. Students must be in their homeroom classes by 7:45 AM or they will be marked tardy.**

If I can be of any service to you, please contact me at your convenience. Thank you for sharing your precious children with us.

Lilya Kichuk
6th Grade

IIS has been selected as a South Carolina Exemplary Reading Honor School. Our school will receive a site visit on February 1st, and the state winner will be announced on Friday, Feb. 24, 2012 at the SCIRA Conference

This year, the 6th grade Excel students at Inman Intermediate School are learning about inventions. In December, these students learned about the assembly line process by manufacturing an edible invention. The 6th grade Excel students were divided into two manufacturing groups complete with supervisors, health inspectors, quality control, advertisement/marketing, accounting, maintenance, etc. Then given the raw materials-cookies, peanut butter, icing, candy, etc. to meet the demands of the order-one for each student. Next, they had a friendly contest to see which team would reign supreme. They will be participating in a school and regional Invention Convention to be held in February.
